

**ZR Field Specialist (ZR2F), Course 242**  
**STUDENT QUIZ**

1. T F The National Incident Management System (NIMS) is used only for major incidents of a significant duration.
2. T F The ZR2F is the most important single resource member of field communications.
3. T F The “eyes and ears” (boots on the ground) for conducting incident intelligence-gathering operations is a mission of the ZR2F.
4. T F The V-C-N Incident Priorities are: 1. Conduct safe operations, 2. Confirm before making changes, and 3. Monitor your radio.
5. Which document describes the ZR2F position including “Home Unit” Responsibilities and “Incident” Responsibilities? PDG or PTB
6. Preparing for an incident includes each of the following activities except for \_\_\_\_\_.  
Standardized Pre-deployment Operations  
Incident Mobilization Nets  
V-F-T-O-M  
Recovery Operations  
Mutual Aid Training
7. T F With regards to standardized N-A-M activities, “N-A-M” stands for Notification, Activation, Monitor.
8. T F Health & Welfare checks are a function of the Resource Net.
9. T F After checking “in” to an incident, you will confirm your assignment with your section / unit.

10. T F During your assignment you must advise NCS of any new threats or hazards.
11. T F A pre-deployment briefing with your observer will include your Unit ID, ICE protocols, VSI, and incident priorities.
12. T F Recovery operations include replenishment and replacement of required items.
13. Personal vehicle inspections and briefing of assigned observers would come under the heading of which priority: Safety, Monitor, or Confirm?
14. T F One major reason for Field Specialist training is increased mutual aid capability through shared standards.
15. T F The Field Communications Specialist (ZR2R) is a “basic and critical” position in emergency communications.
16. T F The ZR2F is a member of the Logistics Section.
17. Match the correct section designator (ZR1, ZR2, ZR3, ZR4, or ZR5) with each of the following ICS sections:

Logistics (LOG) Section	_____
Planning (PLN) and Intelligence Section	_____
Command (CMD) Section	_____
Finance (FIN) and Administrative Section	_____
Operations (OPS) Section	_____
18. T F Application of the LCES principles is a part of the safety priority.
19. Which document lists the tasks upon which a ZR2F may be evaluated?  
PDG or PTB
20. T F The deployment checklist covers only position items and radio items.

21. T F M-codes are included in the Emergency Resource Directory (ERD).
22. Upon arrival at an incident, there are several activities which must be completed. List the following activities in the correct order:
- A. Check "in" to incident.
  - B. Conduct frequency change using established protocol.
  - C. Check "out" of TN.
  - D. Check "in" with the SNCS.
23. T F After checking "in" to an incident, you must perform an equipment check and confirm the frequency to be used.
24. T F A ZR2F will always be assigned an observer.
25. When demobilizing from an incident, there are several activities which must be completed. List the following activities in the correct order:
- A. Check "out" with unit / section.
  - B. Check "in" and maintain contact with TNCS (during "in transit" periods).
  - C. Begin "Recovery" operations.
  - D. Complete demobilization process.
  - E. Check "out" with incident.
  - F. Check "out" with TNCS.
26. T F One of the primary responsibilities of a ZR2F is the monitoring, observing and reporting all tactical operations of designated field assignment for successful completion of operational period objectives.
27. Providing Comprehensive, Accurate, Reliable, and Timely (CART) communications would come under the heading of which two priorities: Safety, Monitor, or Confirm?
